photographer looking for a female model to collaborate in creating some photo sets to post in Zivity. (<http://www.zivity.com>). Zivity hosts some edgy sexy (but not sexual) photography. Maybe we can make some royalties together! Zivity splits royalties 50% for the model and 30% for the photographer.

Reply to my email with some examples of your modeling work and I will send you some of my portfolio. Also, tell me your ideas for some set themes that would work for you and would get money votes on Zivity.

Successful model that works with me will get copies of the images of the shots.

Professionalism expected and assured!
